DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a two-story structure facing northwards, with a southeast wing and a southwestern addition. The walls are bevelled frame, placed on a low stone foundation. The house is four bays by four overall, with the addition being two bays by one. The windows are 2 X 2 on the north face of the house, but are 6 X 6 elsewhere, including the attic windows at the ends of the eastern and western gables. The panelled shutters on the first floor look to be original. The main entrance is situated on the northern facade, a second egress is located on the western embrasure near the rear, while a third door is located on the southern side of the shed addition. Most of the doors and windows have been replaced, although the doors have retained some of the original hardware. The main entrance has a transom and side lights, all two-pane. One large dormer, actually the extended gable, is positioned on the eastern side of the wing, featuring a 2 X 2 arched window. Two other dormers, with unusual arched roofs and architrave trim, are located on the northern side. Their windows are 6 X 6. The gable-flank roof has asphalt shingling, as well as new soffits and eaves. The single porch is on the north side, a three-bay affair with column brackets and dentil trim as well as a shed roof. The three brick chimneys are original, with two on the interior ridgeline of the wing and the third near the western end of the main section on the inside end. Cellar openings are visible on the western and southern sides, and the cellar door is on the south side of the wing.

The barn also faces the north, constructed of vertical frame with a stone foundation. The roof is a gable front, with shed wings on either side.

STATEMENT OF SIGNIFICANCE

The house is located on the part of the tract called "Eaton", which was patented by John Larkin in 1679. Thomas White and his son, William, owned the tract from 1761 to 1795, with it measuring 437 acres according to the 1783 tax list. Gideon Dennison owned the land from 1795 until the early 1820's, he being one of the largest landholders around with 1820 acres. The house is not nearly as old as the tract, probably 100 years, more or less. The 1878 Martenet map shows the owner to be one Isaac Stillwell, but for the next eighty years the property was in the hands of the Macklem family whose one member, John, operated the Rock Run Mill at the turn of the century.
